1) CALL TO ORDER, MOMENT OF SILENCE, PLEDGE OF ALLEGIANCE

R. Brame welcomed everyone to Orange County. Following a moment of silence, R. Jacobs led the Pledge of Allegiance. There were three handouts: Technical Committee Report Addendum, D. Cross, DCR, CDC Monthly Report, and Legislative Committee Report including Culpeper SWCD 2014 Legislative Agenda, and draft resolution on uranium mining and milling.

2) DRAFT MINUTES

R. Brame called for approval of the May 7th, 2013 Board Meeting Minutes. R. Runkle moved to approve the May 7th, 2013 minutes. L. Graves seconded the motion. (Runkle, Graves, unanimous)

3) AGENDA APPROVAL

R. Brame called for Agenda approval. R. Bradford requested the Technical Committee Report be removed from the Consent Agenda and placed as 5.2. M. Rifaat requested Legislation Committee

Report be removed from the Consent Agenda and placed as 5.1. M. Rifaat moved to approve the amended Agenda. A. Sappington seconded the motion. (Rifaat, Sappington, unanimous)

- 4) **CONSENT AGENDA**
Consent Agenda adopted as modified.

TREASURE’S REPORT

- 5.1) **ADDITIONS TO AGENDA –
LEGISLATIVE COMMITTEE REPORT –**

M. Rifaat reported that G. Wichelns distributed the Legislative Committee Report, draft Culpeper SWCD 2014 Legislative Agenda, and the draft resolution on uranium mining. Item #1 on the draft 2014 CSWCD Legislative Agenda is to support a permanent ban on uranium mining and milling in Virginia. The Legislative Committee recommends Board approval of the draft Culpeper SWCD 2014 Legislative Agenda. (Unanimous)

The Culpeper SWCD 2014 Legislative Agenda will be presented to Area II Districts for adoption for their legislative agenda. The Northern Virginia SWCD has to adopt the same legislation as last year’s 2013 final VASWCD Legislative Agenda. The CSWCD is proposing for Area II to adopt the CSWCD 2014 Legislative Agenda to carry forward to the VASWCD for their adoption to carry forward to the General Assembly. There are six Area II Districts and they will be discussing this by conference call and the issues will be submitted to a vote.

The resolution calling for the permanent ban on mining and milling in Virginia has been accepted as part of the CSWCD 2014 Legislative Agenda. The resolution was circulated for all Directors to sign. A. Sappington reported on item #2 of the Legislative Committee Report. All the localities have the option to reduce the \$2,700 VSMP stormwater fee as long as DCR receives their 28% (\$756). A. Sappington disagrees with attempting to reduce the fee, because if the counties want to subsidize it they can already do so. Discussion followed. E. Kerr asked if all counties have to hire more people to comply with the VSMP program. A. Sappington replied that they will most likely have to hire more people. E. Kerr made the motion to return item #2 of the legislative report back to Legislative Committee for more discussion. A. Sappington seconded the motion. Discussion followed. (Kerr, Sappington, unanimous)

William Alley was changed from a RB3 (\$3,000.00) to an RB4 (\$4,000.00).

- 11) Brooke Farms requested an increase for the SL8B (\$3,828.00) and SL8H (\$7,011.75) practices. Maggie Morris also requested an increase for additional pipeline (\$861.90). Loree Allen also requested an increase

based on the drilling of a dry well. The Committee granted additional cost share in the amount of \$4,500 for this practice. All recommended for approval.

- 12) Dam bids were opened at the Technical Committee Meeting. The annual mowing and maintenance work was awarded to the low bidder, John Anderson, at \$9,500.00. Greg Wichelns updated the Committee on the progress of the training dikes. Caynor Lake has been completed and Merrimac Lake is expected to be completed by the end of the week. Work will begin at Catalpa Lake this week. The District will be receiving \$3,000 per dam for annual maintenance in the 2013-2014 fiscal year.
- 13) The Committee recommends the District begin including a statement in all bid documentation that states, "The District reserves the right to review previous contract performance history with the District when awarding contracts on all projects put out for public bid."
- 14) The Technical Committee requests the approval of the Board of Directors to act of their behalf at the Technical Committee meeting scheduled for June 18, 2013.
- 15) Somerset Plantation is asking for an increase of \$326 for their NM1A. The increase is due to more acreage being represented in the plan. Jim Tucker's LE2 contract has been reenrolled under "Tucker Farms LLC." No funding change is requested.
- 16) The 2013-2014 Secondary Considerations, used as guidelines for the VACS program, were approved by Gary Moore, the Agricultural Incentives Program Manager with DCR.

Carryovers for 2013 will be completed after the Technical Committee on June 18th, 2013. D. Cross asked for the Board to authorize the Technical Committee to approve the carryovers. G. Wichelns stated that this was approved at the last board meeting.

G. Wichelns is seeking to approve 95% payment of the training dike project, with 5% reserved for the fall so we know that the vegetation is completely established. All three dikes are completed.

R. Bradford moved to approve the Technical Committee Report. (Unanimous.)

6) **NOMINATING COMMITTEE –**

R. Bradford reported the Nominating Committee consisted of the Chairs of all standing committees and that the current officers agreed to continue for 1 more year. R. Brame, Chair, Lynn Graves, Vice Chair, and T. O'Halloran, Treasurer.

R. Bradford moved for Robert Brame as Chair. M. Rifaat moved to close the nominations.
Unanimous.

R. Bradford moved for Lynn Graves as Vice Chair. M. Rifaat moved to close the nominations.
Unanimous.

R. Bradford moved for Tom O'Halloran as Treasurer. M. Rifaat moved to close the nominations.
Unanimous.

R. Runkle moved for Steve Morris for At-Large position. R. Bradford moved to close the nominations.
Unanimous. D. Cross stated the forms and a letter to the counties must be written for the At-Large position.

7) **DIRECTORS REPORTS**

- R. Bradford reported that he, T. O'Halloran and B. Jarvis attended a meeting with Thomas Vilsack, U. S. Secretary of Agriculture, Thursday at Blue Ridge Produce in Culpeper. Mr. Vilsack is encouraging everyone to contact their Senators and Representatives and encourage action on the farm bill and not continue with the six month or nine month continuations. The draft farm bill proposes to end direct payments to the farmers. Crop insurance will be playing a larger roll

insuring that producers have a safety net. Conservation is losing money in the farm bill. The bill encourages more private partnership with farmers. NRCS will not be losing money – it will just be distributed differently. Organic farmers are against Genetically Modified Crops (GMO's) and wanted the government to take a stance, but until proven otherwise GMO's are considered safe. They are creating a non-genetically modified seed bank, but will not require labeling of GMO products.

- L. Campbell reported she is pushing for a recommendation to the Local Working Group which is to meet on June 25th, to reduce erosion and to create a new program to better support pollinators by using a blend of cover crop plants.
- E. Kerr reported on an article which was on-line – a new law is being proposed by the European Commission to make it illegal to grow, reproduce or trade any ban on seeds not approved by law.
- L. Graves reported the AFGC conference at Graves Mountain Lodge was very well attended and everyone seemed to have a good time.
- B. Kane reported he received an email notice from Madison County Administration stating there would be a meeting with Congressman Hurt's staff. There is no agenda and Kane noted this is the first time such a meeting has happened. L. Graves stated he thought that they were doing this in all counties now. This appears to be a new outreach program.

Madison County has created a spreadsheet illustrating the anticipated proceeds from the park entrance proposal. It shows that there would be at least 10 cars an hour. B. Kane reported the current road condition is very poor. He handed the spreadsheet out to everyone. There are no costs (no personnel cost), just the benefits to the County. A. Sappington questioned if they are assuming all this money is going to the County. What does the Shenandoah National Park get in revenue? B. Kane stated this issue will be around for a while in Madison. M. Rifaat asked how are all of these people getting into the park now, through Rappahannock or Greene Counties?

- A. Sappington suggested this board might want to consider a second technical committee to deal with the stormwater issues that will arise. The second technical committee would take on non-ag technical work. This might be called the urban technical committee.

She reported that she and the District Manager had attended the Secretary of Natural Resources District Funding Committee formerly called the Sumer Study Group Committee and it has been broken up into three sub-committees; 1) the efficiency and cost reduction for Districts, 2) performance standards for Districts and 3) distribution of cost-share funds and how that is to be done in the future years. It looks like there is going to be a gradual ramping up by the state for engineering assistance by state employees. There was talk of changing District boundaries and sharing staff. They are looking at the 8% of Cost-share and what it covers. The sub-committees will be continuing on.

- R. Brame reported Southern Greene County – Rivanna River Basin Commission Annual Report for 2012 Watershed Snapshot. The Commission is being reduced, without a full time staff. It was created without a funding base.

8) STAFF REPORTS

- Richard reported he was able to give to the Old Rage Chapter of the Master Naturalists a water monitoring and aquatics training session. He also attended the Rappahannock Rapidan Regional Commission committee on the environment and land use. The focus included some discussion on the local stormwater programs and some of the localities have asked for extensions. During the meeting there was a person from DEQ who gave an overview of general construction permits. The general construction permit is open for public comment until June 6th.
- D. Massie reported Easternview High School Placed 8th out of 20 teams for the state competition.

David Hannah, Executive Director of Stream Watch gave his presentation.

9) AGENCY REPORTS NRCS

R. Rexrode reported Anton J. Schaffer was hired as NRCS Engineer serving the counties in Harrisonburg Area I, and will be starting June 17, 2013. He will be limited in helping the Districts and will be visiting Culpeper on June 19th. Volunteer – Leslie Clements is from Orange and goes to Christopher Newport News University and will be with us for the summer.

NRCS budget appears to be okay and the staff is currently spending time writing contracts based on this year's funding. The Local Working Group will meet in Culpeper at the Service Center on June 25th at 9 a.m. An intensive Nationwide Grassland Study is being done. Some areas in the District will be looked at. In Culpeper, on June the 12th, Battle Park Farm will be looked at. The Division of Forestry will be meeting on June the 27th to look at some practices on the ground.

DCR

D. Cross reported on 2014 Administration and Operations Grant Agreements and the associated VSWCD policy have been mailed and should be reviewed and approved at June meetings. All operational funding for the entire year (essential, director training and travel, special support-historical, dam maintenance) will be disbursed once the signed agreement is submitted and End of Year Reports have been reconciled with tracking and Attachment E.

SWCD Annual Assessment will be completed and presented at the July and August board meetings.

Audits/Bank Statements: The auditor's reports and management letter were provided to districts in May. One item the auditors suggested to DCR was to encourage districts to work with their banks to move statements to the end of the month to assist with reconciliation and budgeting.

VACS Administration –

Carryovers: Districts must approve carryover practices at June board meetings and record approvals in the Board Minutes.

End of Year Reporting: All practices in Tracking must be marked complete, carryover or cancelled. Cash Balance reports need to be reconciled with tracking and the Attachment E and is due no later than July 15th.

Cost Share Self-Assessment: due to CDC no later than August 31, 2013.

Secondary Considerations: Must be approved by both DCR and the SWCD before any practices may be approved in FY 2014.

VECI: the 4th and 5th rounds of VECI applications were approved in May.

Resource Management Plans - final regulations for the state's first agricultural resource management plans were published following approval by the Virginia Soil and Water Conservation Board.

DCR/DEQ merger and Reorganization: Affected DCR staff transfer to DEQ effective June 25th. The Division formerly known as the Division of Stormwater Management becomes the Division of NonPoint Pollution Prevention. Rick Weeks will continue to be the Acting Director. Darryl Glover will oversee District Programs and Regional Offices with the help of an East (Wayne Davis) and West (Jim Echols) Regional Manager.
