Subject: CSA Monthly Report – May 2014

Please find attached the CSA report for expenses incurred through March. We continue to show our expenses paid-to-date and projections, based on open cases, to be under our budgeted amount. Our team continues to work hard to ensure our children and families receive the necessary services as well as remaining within our budget.

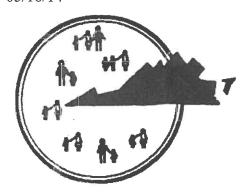

One major concern for our program at this time is the lack of an approved state budget. We have been thinking about a contingency plan in the event this continues past July 1st. I will be asking for guidance from the Office of Comprehensive Services as to what this means for our locality if a budget is not passed. I will keep you posted on our findings.

I have included some information along with my report that shows how youth can be deemed eligible for CSA pool funds. Please read over the information and feel free to reach out to me with any questions you may have. The information gives a broad overview of the services that are commonly purchased and Orange County utilizes many of those same programs for our children. If you would like a more detailed list of our locality specific services, please let me know and I will be happy to provide that information.

Please read over the attached report and let myself or Letitia know if you have any questions and as always, thank you for your continued support.

Accessing Services through CSA

The Comprehensive Services Act for At-Risk Youth and Families (CSA) is a law enacted in 1993 that establishes a single state pool of funds to purchase services for at-risk youth and their families. The state funds, combined with matching local funds, are managed by local interagency teams who plan and coordinate services to youth. The mission of the CSA is to create a collaborative system of care that is child-centered, family-focused and community-based when addressing the strengths and needs of troubled and at-risk youth and their families in the Commonwealth.

The Comprehensive Services Act makes a broad array of services available to youth and families through their local community.

CSA funds are available for youth who:

- Require foster care services or foster care prevention services,
- Require placement in private schools to receive special education services, or
- Have behavioral health needs that require coordination of services across multiple agencies or put the youth at risk of out-of-home placement.*

*Use of CSA funds for this population varies by locality

To access services, families may:

- Request assistance through a public agency serving the family/youth, e.g.,
 - o Community Services Board,
 - o Department of Social Services,
 - o Court Services Unit, or
 - Local school division.
- Contact a local CSA representative. A link to "Local Government Contacts" may be found at the following address: www.csa.virginia.gov,

Commonly purchased services include:

Youth and family support, prevention, & foster care services:

- Mentoring
- Respite
- Community support services
- Emergency shelter
- Intensive care coordination
- Independent living services
- Foster home placement
- Group home placement

Special Education Services (in accordance with an IEP):

- Private Day School
- Private Residential School

Behavioral health services:

- Community-based services:
 - o Mental Health Case Management
 - Outpatient Counseling (Individual, Family)
 - Assessment/Evaluation
 - o Intensive In-Home Counseling
 - o Mental Health Skill Building
 - Therapeutic Day Treatment
 - Treatment Foster Care
 - o Crisis Stabilization
- Psychiatric residential treatment services

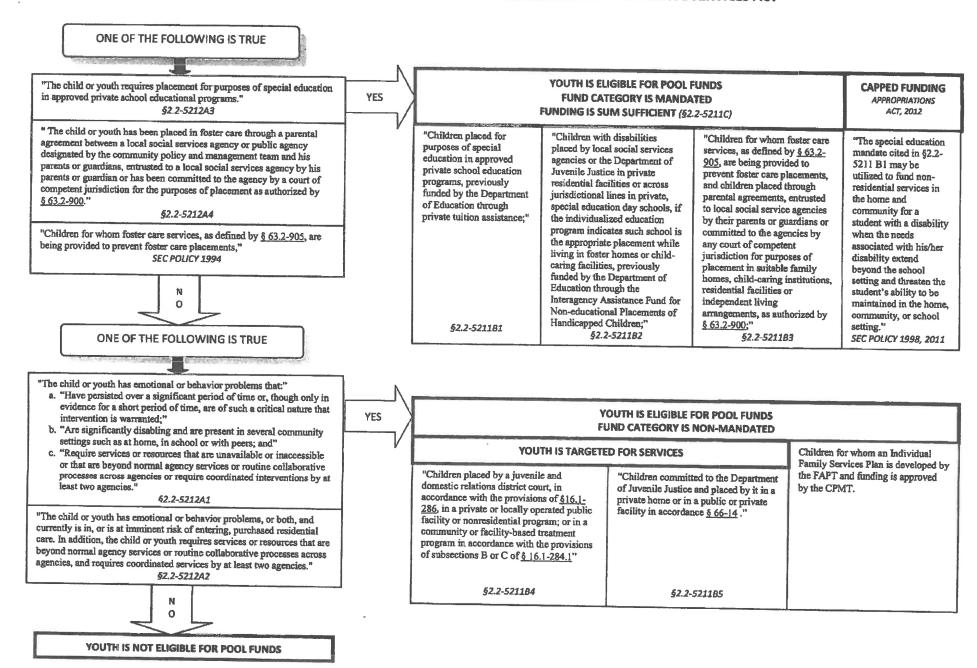

Services are accessed through local community teams who will:

- Determine the youth's eligibility for CSA funding,
- Assess all possible funding options including Medicaid, private insurance, and other community resources,
- In partnership with youth and families:
 - o Identify youth and family strengths and needs through a uniform assessment tool,
 - Identify appropriate services designed to achieve desired outcomes.
 - Develop an Individual Family Services Plan to describe services, service providers, goals, and projected timelines for services, and
 - Coordinate, monitor, and adjust services on a regular basis.

Additional Information:

- Some services have specific eligibility criteria.
- Not all services are available in all communities.
- Families may be assessed a co-pay for services.
- Families do not need to relinquish custody to obtain services for a child.

DETERMINING ELIGIBILITY FOR FUNDING UNDER THE COMPREHENSIVE SERVICES ACT

prev next

§ 2.2-5212. Eligibility for state pool of funds.

A. In order to be eligible for funding for services through the state pool of funds, a youth, or family with a child, shall meet one or more of the criteria specified in subdivisions 1 through 4 and shall be determined through the use of a uniform assessment instrument and process and by policies of the community policy and management team to have access to these funds.

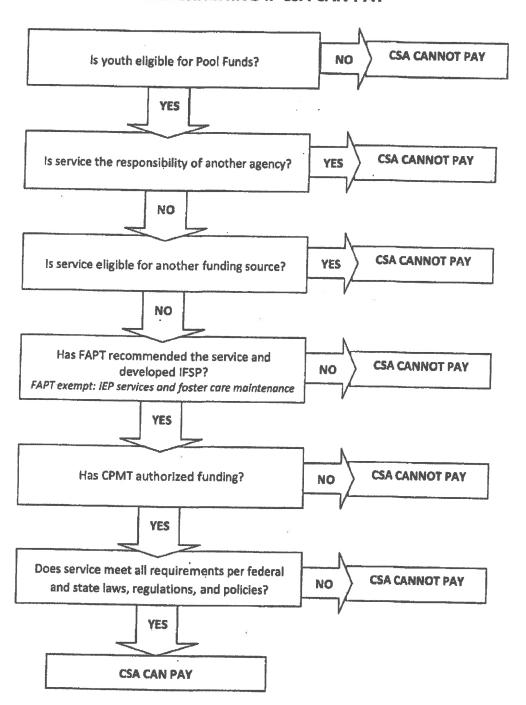

- 1. The child or youth has emotional or behavior problems that:
- a. Have persisted over a significant period of time or, though only in evidence for a short period of time, are of such a critical nature that intervention is warranted;
- b. Are significantly disabling and are present in several community settings, such as at home, in school or with peers; and
- c. Require services or resources that are unavailable or inaccessible, or that are beyond the normal agency services or routine collaborative processes across agencies, or require coordinated interventions by at least two agencies.
- 2. The child or youth has emotional or behavior problems, or both, and currently is in, or is at imminent risk of entering, purchased residential care. In addition, the child or youth requires services or resources that are beyond normal agency services or routine collaborative processes across agencies, and requires coordinated services by at least two agencies.
- 3. The child or youth requires placement for purposes of special education in approved private school educational programs.
- 4. The child or youth requires foster care services as defined in § 63.2-905.
- B. For purposes of determining eligibility for the state pool of funds, "child" or "youth" means (i) a person younger than 18 years of age or (ii) any individual through 21 years of age who is otherwise eligible for mandated services of the participating state agencies including special education and foster care services.

DETERMINING IF CSA CAN PAY

Virginia's Comprehensive System of Care

Shared vision, mission, goals

There is a shared belief that all children deserve access to a coordinated array of critical services which will produce the best possible outcomes.

No wrong door At-risk youth and families have access to funding and services regardless of how they come to the attention of those responsible for serving them.

Multi-disciplinary planning

There is collaboration and cooperation in planning to address diverse and complex needs without limitations that might otherwise be imposed by operating within the parameters of individual agencies.

Blended & braided funding

Financial structure encourages effective and efficient use of all available resources and maximization of federal funding streams. Access to funds is available in one place and through one mechanism.

Coordinated services

Effective individualized care planning and management processes address the unique strengths and needs of children and families holistically, value and respect family and youth input, deliver care in the family setting, and care for families in the context of their communities.
