**ORANGE COUNTY WELCOMES NEW
PLANNING AND ZONING SERVICES MANAGER**

ORANGE COUNTY, Va. – Orange County is excited to announce Josh Frederick as Planning and Zoning Manger effective September 26, 2022.

Fredrick holds a master’s degree in public administration from North Carolina State University and over a decade of experience in the planning field, primarily in the Virginia piedmont region. Frederick previously worked for Orange County from 2013-2018.

Frederick’s experience with administration, site plan review, rezoning, special use permits, erosion control, and other development reviews will bring experience and innovation to the Development Services Department.

Frederick said he is looking forward to returning to planning the future of the community he has called home for over ten years.

“We, the Development Services Department, are glad to have someone on the team with Mr. Fredrick’s knowledge and expertise. Josh brings, not only the technical knowledge of being a Planning and Zoning Services Manager, but also a thorough knowledge of our county,” said Nicole Ganoë-Washington, Director of Development Services.
